5. HIV Prevention Update – Matt

- a. Darryl and his team switched over to X08 funding from CDPH-Office of AIDS as of January 1, 2018. They are now collecting data in ARIES. This will continue until the X08 funding runs out and we switch to the CDC funding through CDPH-Office of AIDS, most likely around July. At that time, data tracking will change to LEO.
- b. Question from Regina regarding potential benefits to utilizing bioLytical's INSTI rapid HIV tests, which provides rapid test results in approximately 60 seconds. Matt explained that time is still needed for HIV test counselors to provide health education and risk reduction counseling to client. Also stated

that with the change in funding through CDPH, test kits are provided at no cost to San Mateo through CDPH.

- c. Matt informed group of CDPH-Office of AIDS creating PrEP-AP. This is a program similar to ADAP that will assist people on Pre-Exposure Prophylaxis with copays. Darryl's team will be the most likely enrollment workers for this program. CDPH-Office of AIDS is looking at rolling this program out in early 2018.

6. HIV Care and STD Update - Matt

- a. Matt reminded everyone that the next full board meeting is April 11, at which time the annual prioritization happens. Since some members had not been present for the past prioritization meetings, Matt went over the Ryan White service categories.
