

# CALL US BEFORE YOUR VISIT

(650) 537-3678

---

**It's not required, but calling before your visit helps us:**

- **Coordinate the number of visitors that can come at a time.**  
*We recommend 1-2 visitors.*
  - **Let you know about the visiting rules in advance.**  
*You will need to show your proof of COVID-19 vaccination or testing when you enter, and follow all infection control instructions.*
  - **Update you on the resident's current health status.**  
*If the resident becomes unwell, we may need to reschedule the visit until they are feeling better.*
  - **Prepare the resident before you arrive.**  
*This gives our staff time to make sure the resident is ready for your visit.*
- 

***Thank you for helping us keep everyone safe!***
