

Prop. 1 – Transition to Behavioral Health Services Act (BHSA)

Key priorities for BHSA include:

- Inclusive of substance use without a primary mental health diagnosis
- Focus on the most vulnerable individuals living with serious mental illness (SMI) and/or substance use disorder (SUD), who are at-risk or chronically homeless and at risk for justice involvement.
- Build supportive housing and unlocked community mental health and substance use treatment settings.
- Redirect the Mental Health Services Act (MHSA) funds to housing interventions, full service partnerships, and other core services, including early intervention.
- Create transparency in fiscal planning and reporting across all behavioral health revenues (local and state) with an emphasis on Medi-Cal billing.
- Standardize outcome reporting across all behavioral health programming.

NEW Funding Allocations:

Population-Based Prevention (4% shifts to state)

- BHSS - Behavioral Health Services and Supports (30%)
- FSP - Full Service Partnerships (35%)
- Housing Interventions (35%)

*Counties have flexibility to move up to 7% from one category to another.
